Resident evil 1 walkthroughs

hidden staircase, make sure that you have the key to the tub and a space in your inventory and then walk down the staircase. Go back to the door and turn left towards the elevator. When you return you discover that Richard dies anyway, before he dies he gives you a radio (which is quite useless, but necessary) and if you search for his body you will find another clip. Show him who's boss and blow his head off. One has a lighter ammo and a red plant, the other has a Bazooka ammo (Chris has more Shotgun ammo). Walk through the door at the bottom of the stairs. Passing through the door you will find yourself in the place where you met the first zombie. The door can not be opened yet, so return to the Elevator (now in operation), before moving up the elevator stock in Python ammunition and any health items. You can read notes and play the piano. Can catch the rifle early, as even setting off the trap, she will be rescued by Barry. Be ready with your Python, as the next Monsters are nasty. Search the room to find shotgun ammo and use a green herb if you are injured. In this room is an unpleasant plant that will not near the key through him. Your main goal now is to get the Python that I have hidden behind the Tiger's Station. Now you must have three Crest: the sun, the wind and the moon crests. The red jewel is hidden in the stags' head, but you can not even see it. Friend and partner survive = Mansion explodes and all three escape. Store here and collect the Bazooka (or Python) ammunition. Look at the ventilation on the wall to find a switch, use it to find a key. Take the earth and skirt and climb the stairs. VARIA es Jill-If you waited Barry to release the rope, then he will find you here. Avoid this creature at all times unless you prepare to shoot. When you pick up the lighter, go back to this room. Get out and go to the living room down the hall. Going through the door you will find a saved room containing any land and a chest with 2 clips inside. Barry will meet you (just Jill) and give him a bazooka munition. Receives a lockpick that will open almost all main doors and any drawer. Inside is a piano, come to him and investigate. Collect some green plants and cross the door. In this room there are 2 mobile objects (a table and a few steps), move the statue and collect the map, now move the table away from the door and enter. Now take the golden shield to the dining room and continue down the corridor by finding another zombie. In this room are 3 doors, one is the door to the chemical room that is protected by a security lock (Light all the lights to open the door), the door not try to face more enemies than you think can (by Taking a group of three hunters is not suggested). Enter the horror of survival ... Kill the zombies and come to the first door you see, this should be a rescue room. Jill has to find the serum now, remember that important room? This step-by-step follows the story mode of Jill Valentine and Chris Redfield, detailing the six main areas of the game. Use the crank on the water gate and head back to the waterfall using the new lift. If playing as Jill, Barry takes you straight into the room, the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take control of Rebecca and take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If playing as Chris, you would take the serum is contained; If you would take the serum is contained; If you would take the you would take the serum is contained; If you would take the you would take the you woul do some careful shooting, otherwise they will stay on top of you. Go back into the hallway, turn left and pass the red doors to the piano room. Collect the green plants if you need them. Jill-Jill can play the piano to reveal the hidden entrance. Push the steps in front of the fireplace and turn off the light, you will now see the red gem, collect it and go to the statue of the tiger. Head to the ground floor corridor outside the east staircase and walk through the north-facing door in the gallery. I come to the chemical room and do V-Jolt (the instructions are on the wall), now use this in the factory room (near the shark room). This next bit is tricky, but if you can control your character well, then it shouldn't be a problem. Examine the book of botany and then leave. Get in the ground). In Renaissance Mode, he will have thirty Bullets of Weapon and fourteen Rifle Cartridges in one of the box items. In a dark room, turn on the light and collect the Red Book and the Python World. Don't worry about killing the crows, because they are a pain to kill. If you don't give up the stairs. If you don't give up the stairs. If you don't want to, I'll go to the room more than left of the floor map, down some stairs. Go out and go on to Broken Lift (by Waterfall) making sure you don't have Crank in your invention. & Nbsp; CHRIS If you don't save Rebecca she will trigger the ¼ of self-destruction at the end of the game. A zombie will now burst and Barry will take care of him automatically. Continue down the hall and you won't come across two doors. Now I'm going through the door down the hall and you won't find out that she's about to be killed by a shaman, unless you don't save her. Collect the Healing Spray and place it in the BaHao, there's also a Blue Plant in the ground, use it if you haven't been poisoned. Going through the other door you won't find 2 more zombies, if you can't get some good practice in blowing up zombie hair outside (high aim). Investigate the body and you won't find the bazooka (Chris will find 2 clips). It takes far less damage than Jill. If you don't have the serum, you won't eat to suffer the same effects that Richard did. He'll ask you to help him. In down the hall and save if you have a ribbon on you (the next part can be lethal). At the end of the room, put the crest on the slots and the next door will open. Down the ladder are some boxes, push them into the water to make a bridge. Inside is a library containing 2 zombies. Inside there is a zombie on the ground, you can shoot in it on the ground or have fun and pluck your head (Chris crushes her head), collect the tape on the shelf and leave. Now you have to control Rebecca. In "Rebirth" mode, use the Rapid back feature to escape the enemies. Locate the terminal and connect it. On the corner of the stairs there is more rifle ammunition. Now you will hear 2 zombies eating something, closing them slowly and shoot the ground. The snake that you fought earlier now will appear from the fireplace and try to stop you. Get out and cross the hall to another door. Caverns exploring this section you will find a Spray of Saúde and Munition Bazooka (Chris receives shotgun ammunition). If you're playing Chris will not go to this room still as you will be killed by the trap. Collect the file on the wall and then use a CD-ROM on the corner in the corner in the corner in the corner in the corner (exceeding the "interesting" image). Be sure to know the game controls first because the control system can be confusing for some in the beginning. Now you can use the elevator, but before going there, go back to the 3 Switch Door and go talk to Chris (or Jill). The puzzle in this room is quite easy (use the elevator, but before going there, go back to the 3 Switch Door and go talk to Chris (or Jill). Tentacle plant died you can now investigate the fireplace to find a key, use this key to open ports locked in the mansion. Inside is a room saved with a breast, (if you are Chris you know for the first time, she will volunteer Help him, if you don't say 'yes', she'll prepare some rem ©dio for you, which is useful as Chris It's very difficult and helps you not later in the game, if you don't say 'no' she'll prepare some rem©, but it won't help you out later in the door you didn't come and turn right to find port '002'. If you don't enter the serum room, you don't hear a scream when Rebecca is dead. Can not read notes and play piano; He must be helped by Rebecca. Go through the gair of green doors to find the second amulet. Enter the dining room and collect the wooden shield above the fireplace and the blue yolk in the debris of your cup. Enter and turn left through the doors. Collect the slide reel on the floor and return up the stairs to the previously locked door. I don't need a lot of hits with your Beretta and Shotgun, it doesn't stay in the same place long as the ceiling will fall on you. The first Zombie Easy, the second one slightly more complicated. It must be revealed as a vault, containing another crest. Once the hidden room was found, I'll come and take the gold shield, the door will now close in arresting you. Turn right at the bottom of the stairs and pass through the doors. Now you should not be in a rescue room, collect the tape and save as there is another boulder coming. Important - No left, the tubar will kill you instantly. Down the hallway where the zombie came from you I will not find a room with a clip. the corner of another dog, do the same thing to kill it and walk out the door. The lighter can be used to reveal a map in the room by the hallway, but not really vital. After shooting another zombie, you must find 2 other doors, pass the unlocked door. Inside this room next door is a large poisonous spider, killing it with 2 shots of your python and beware of the spiders of the spiders of the spiders of the spiders of the spider and help Jill rise. The Tyrant Note: If your partner is still alive, they will find you here. With only thirty seconds to go before Mansão explode (if your partner survived), Brad launches a rocket launcher for you. He leaves and they poison it. A clip is hidden in the box and there is a plant in the corner. Barry helps Jill several times along the game. To find out if you understood, you will go for the pain painting - at the end of the room - and turn the switch. When Jill climbs the rope mysteriously falls. Going through the farther door, you will find 2 more hunters kill these or avoid them. Leaving the elevator that you find another zombie, kill it and turn right. If you wait for him to leave another rope, then he will help him later in the game. Now it goes for the main room. Chris-Chris can not play the piano that Rebecca enters. Go to the door (avoiding the snakes). Board the ladder and decapitate the zombies. Go to the next door to find yourself in the power room, find the terminal and turn it on. This CD-ROM machine opens one of the 3 switches that lock the other door outside, this door leads to a calama containing Chris (or Jill), so if you want the final end you have to Find all the machines. Climb onto the boulder and run towards the hallway you just made, once the boulder has passed, see where you were and collect the CD-ROM. You are back in the main hall. Barry will still be where you spoke to him (still "examining" the blood). This is a clue, life is much easier with python. Use green plants if you have been injured. Down the elevator. Move the steps to reach the square crank and exit through the other door. T-002: The second encounter Tyrant has entered his "R" form since last time and is stronger than ever. She has some knowledge of the piano, but she needs to practice. Go through the statue. Come to the grey door and kill the zombie down the statue. Come to the piano, but she needs to practice. Go through the door through the door through the door through the statue. room, first zombie corridor). The door here is locked, so go back to the elevator and turn left, kill the zombie and go through the blue doors. Outside this room are 2 zombies, careful as they spit acid on you. If you want the final ending, then you must go through the door to the left to find him, otherwise you will find him later down the stairs, dying (where he will give you a picture of his family). The door on his right contains a clip, shotgun shells and a rusty shotgun (Chris needs this to get the shotgun), but it still can't be inserted. Stepping outside the elevator You will meet by 2 dogs, kill them at a distance and pass them through the other rusty gates (ignore the other elevator for now). You are now on the balcony above the dining room, there are 2 zombies. Be warned: you will use your animation in execution much more often. Solve the enigma of moving the box inside (do not press the switch) and pass through the air vent. Shoot him with your python Or shotgun. You have to unlock drawers with small keys instead of the lockpick (each small key occupies one slot). Turn right and I'll go into the hole for the crank, use the crank, use the crank, use the red book on the shelf and go through the secret door (if you don't have a tape and want to save you can't find a tape in the drawer). Light up the µ below the paintings in the order that man would follow, each portrait being an older version of him. Get out and up the stairs. Now you should not be a stone statue, push it over the hole in the hall (this prevents a grapevine monster grabbing you). It really makes you not feel guilty! Your 3 objective now You will find a battery for the broken elevator. Make it count, because it can drive away the approaching rocket. All your differences are listed below: Jill has eight invent spaces instead of six. If you don't continue down this corridor, I'll see a zombie eating another, drag yourself down to them and kill them both. The endgame partner sets timer and survives = the mans explodes and the two escape. The opposite door is blocked by a web of spiders, so collect the knife in the corner to cut through it's (or use Chris's flamethrower). Instead, find the python. I'll walk up to the stone and run back to the door, Boulder will now eat very fast rolling in your direction, if he catches you, he will kill you instantly. You must find the broken rifle and disarm a trap before taking the shotgun. Unlock this door and enter. Now go back through the doors and turn around right. After entering a room, listen to any sounds to see what kind of enemy is in the room (for example, a zombie shuffles its pé s, a cerbero will growl, etc.) After selecting a character, the introductory movie will play and the game immediately once finished. On the bed is a clip. Change the flashing switch to open the next door. Cross the bridge and go through the doors. Save the game using the tape you found and then pour it on your chest. After entering the room wait a second, a zombie will stumble out from the right side in your sights. Go back to the Mansion. Enter the first door you see. Go upstairs and meet up with your friends. Collect the green plant and use it if you have been injured. Once you start the game, you will be asked to choose either Chris Redfield or Jill Valentine. Shoot the zombie and turn right in a small study. Come through the door to your right and you'll find a room. This will reveal a
